**Why a Computer Screen?**  
How else could all this information be displayed, and understood?

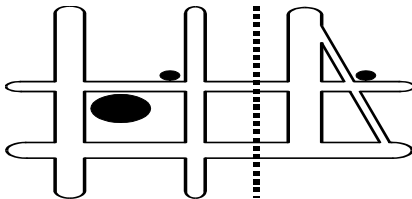

### Connections for Every Purpose:

**Printer:**

For Receipts and Reports

**GPS Receiver:**

For Pick-up and Drop-off locations to be included in the *Data Log*.

**Radio Modem/Dispatch Network:**

Compatible with "CabCharge"; for real-time event and data transfer. Plus dispatch office commands and messaging.

**To Handle Payment Cards:**  
**Swipe Reader:**

Add a swipe reader for under \$100. All the clever stuff is inside the meter! And a plug-in Smart Memory Card to store the transactions, for transferring transaction details to the dispatch office.

**Note Book Computer:**

To transfer the *Data Log* provides recall of the last fifty job records in full detail.
